

Prince Patel

I am a Full-Stack Developer from Gujarat, India, currently pursuing a BSc in Computer Applications and Information Technology (CA & IT) at Ganpat University. I build modern, responsive web applications using the MERN stack and focus on writing clean, maintainable code while continuously improving my skills through practical projects.

Work Experience

Academic & Self-Learning Projects

Personal Portfolio Website (MERN Stack)

- Designed and developed a responsive personal portfolio using MongoDB, Express.js, React.js, and Node.js.
- Implemented dynamic content, reusable components, and modern UI practices.
- Deployed the application and optimized performance for better user experience.

PG / Hostel Finder Web Application (MERN Stack)

- Built a full-stack web application to search and filter PGs/hostels with admin management features.
- Developed REST APIs, authentication, and database integration for real-world use cases.
- Added role-based access control and CRUD operations for secure data management.

MERN Authentication System

Feb 2020 - Jan 2021

- Assisted in the preparation of financial statements, ensuring accuracy and compliance.
- Conducted internal audits, identifying and rectifying discrepancies in financial records.

Technical skills & Abilities

Technical skills

- Proficient in MERN Stack, and PHP
- Strong knowledge of JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
- Experience with APIs and JWT Authentication
- Familiar with Vite, and React Hooks
- Database management with MongoDB, and MySQL
- Version control using Git & GitHub

Abilities & Strengths

- Problem-solving mindset with focus on clean and maintainable code
- Ability to design and build responsive, user-friendly UIs
- Good and effective communication skills for explaining technical concepts clearly

Educational Background

Bachelor of Science Computer Applications & Information Technology

Department of Computer Science, Ganpat University

July 2023 - Pursuing

- Learned core programming concepts using .NET and PHP, along with object-oriented principles
- Gained hands-on experience in database design and management with MySQL
- Developed foundational knowledge of web development and IT fundamentals
- Acquired basic skills in graphic design tools such as Photoshop and CorelDRAW
